OUTDOOR

POWER EQUIPMENT

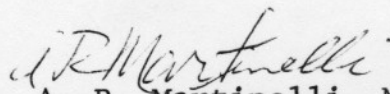

OPERATION

July 25, 1972

TO: ALL ELEC-TRAK DEALERS

As part of the General Electric policy for parts service on Elec-Trak equipment as described in the franchise agreement, we will be shipping to each dealer who has received E8M/10M tractors a spare parts kit for these tractors and mowers. The list of parts showing quantities and prices is attached. Your account will be billed \$124.25 for these parts. This is a minimum parts stock to assure your ability to provide prompt service to E8M/10M purchasers.

Also enclosed is a list of parts from the original parts kits which may be returned to the Outdoor Power Equipment Operation in Scotia, New York, only during September for credit to your account. This offer will terminate September 30. The parts listed may be returned only if you received them as part of the original kits and they have never been used. Such returned parts must be delivered to Scotia, New York, in clean and unopened condition. All transportation and insurance costs shall be paid by the dealer. For parts returned in other than new condition, a restocking charge will be added. Parts will be credited against the exchange at prices in effect when delivered. This offer permits you to update your stock of spare parts for optimum service capability.
